

DANIEL O. RILLERA

Web Developer | AI Automation Specialist

09668160595 | danrillera.va@gmail.com | santol, La Union

ABOUT ME

Committed to building high-performance web applications and automated systems through clean code, structured problem-solving, and reliable solutions. Consistently dedicated to technical accuracy, continuous learning, and adaptability in fast-paced software environments.

EXPERIENCE

Information and Communication Technology DMMMSU NLUC **December 2024 - April 2025**

- During my internship I developed a web-based ICT Ticketing System to streamline technical support request routing and resolve hardware/software issues efficiently.
- Created a digital Student ID Application Portal to simplify data submission, verification, and processing for new applicants.

Nexistry Digital Solution **October 2025 - December 2025**

- Designed, built, and optimized automated AI workflows and multi-step integration pipelines to streamline client operations.
- Trained, fine-tuned, and deployed custom AI models and chatbots tailored for client-specific business use cases and customer support.

JaJr Construction **January 2026 - Present**

- Engineered a suite of internal construction management applications, including an Attendance Monitoring System, worker Site Allocator System, and a streamlined Procurement System.
- Integrated a biometrics-based Facial Recognition System to automate and secure office staff time tracking and entry verification.

EDUCATION

College Graduate

Bachelor of Science in Information System **May 2025**
Don Mariano Marcos Memorial State University - NLUC
